

## **Laboratory-based Virology Weekly Report**

Week 29 ending 23 July, 2023

The laboratory-based surveillance for influenza and common respiratory viruses is carried out all-year-around by the NZ virus laboratory network consisting of the WHO National Influenza Centre (NIC) at ESR and six hospital laboratories in Auckland (2), Waikato, Wellington, Christchurch and Dunedin. This laboratory network tests specimens ordered by clinicians for hospital inpatients and outpatients during normal clinical practice (serving ~70% of the NZ population). In addition, this laboratory network also conducts testing for public health surveillance, including SARI, ILI and WellKiwis (i.e. SHIVERS) cohort surveillance.

Caution is needed in the interpretation: 1) Sample collection is ordered by clinicians based on clinical judgement for patient management, rather than a systematic sampling approach for surveillance; 2) The number of laboratory tests can be influenced by testing priorities and demands, reagent and resource availability; 3) Testing technology and instruments evolve over the years which may have contributed to improved sensitivity for detection in recent years.

Tables and Figures below show the weekly influenza and common non-influenza viruses reported from the laboratory network in 2023. Note: complete SARS-CoV-2 reporting is provided at <a href="https://nzcoviddashboard.esr.cri.nz/#!/">https://nzcoviddashboard.esr.cri.nz/#!/</a>

Table 1. Influenza respiratory viruses reported, since 1 January 2023.

Influenza viruses	Total
No. of positive specimens	7596
Influenza A	4872
A (not subtyped)	3971
A(H1N1)pdm09	844
A(H1N1)pdm09 by PCR	770
A/Sydney/5/2021 (H1N1)pdm09-like	74
A(H3N2)	57
A(H3N2) by PCR	57
A/Darwin/6/2021 (H3N2)-like	0
Influenza B	2724
B (lineage not determined)	2362
B/Yamagata lineage	0
B/Yamagata lineage by PCR	0
B/Phuket/3073/2013-like	0
B/Victoria lineage	362
B/Victoria lineage by PCR	322
B/Austria/1359417/2021-like	40

Table 2. Non-influenza respiratory viruses reported, since 1 January 2023.

Non-influenza respiratory viruses	Total
No. of positive specimens	6155
SARS-CoV-2	77
Respiratory syncytial virus (RSV)	3207
Parainfluenza 1 (PIV1)	17
Parainfluenza 2 (PIV2)	66
Parainfluenza 3 (PIV3)	41
Rhinovirus (RV)	1618
Adenovirus (AdV)	646
Human metapneumovirus (hMPV)	340
Enterovirus	220
